PUERTO MORELOS

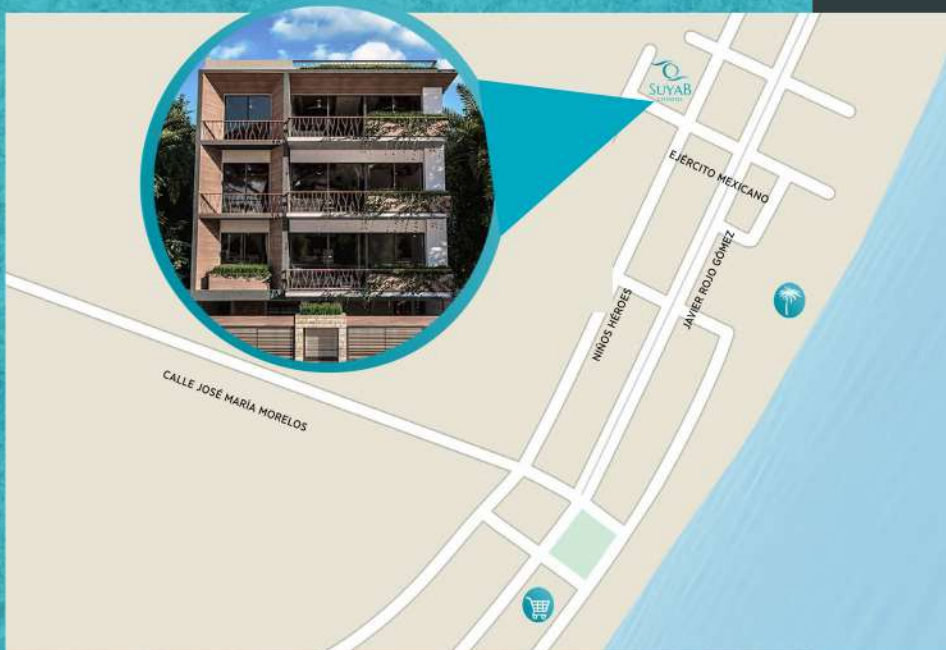

It is a port city on the coast of the Caribbean Mexico. It is located between Cancun and Playa del Carmen in the Riviera Maya. The only place in the northern area of Quintana Roo that retains part of its original character of the fishing village. The Puerto Morelos Reef National Park has many dive sites on the coast. Turtles nest on the beaches of its coast. Definitely it is a place known for the tranquility and natural contact that can be appreciated.

SUYAB CONDOS

It is located at a strategic point of the area, a few meters from the Caribbean Sea, which is so far the only way to the beach and the perfect way to find exotic restaurants, magical cenotes and majestic pyramids through a peaceful bicycle tour.
